

LINKEDIN PROFILE REWRITE

Maryna Bodnaryuk

A step-by-step guide to upgrade her LinkedIn for AI annotation,
language QA, and multilingual remote roles

This document contains every change Maryna should make to her LinkedIn profile, in the order to make them. Each section has the exact text to copy-paste, plus checklists for the actions she needs to take herself.

CONTENTS

1. Profile basics & settings	p. 2
2. Profile photo & banner	p. 2
3. Headline (3 options)	p. 3
4. About section	p. 4
5. Experience rewrites	p. 5
6. Skills (50 keywords)	p. 6
7. Languages, education, certifications	p. 7
8. Featured & Open-to-Work	p. 7
9. Job alerts & saved searches	p. 8
10. Connection & engagement strategy	p. 8
11. Final checklist	p. 9

Prepared 2026 · Use as a working document — tick items as you complete them.

1 Profile basics & settings

Before changing any text, fix the housekeeping. These take 5 minutes and matter for searchability.

- ☐ **Custom URL.** Current URL has the random suffix -030a21323. Go to *Settings* → *Edit public profile & URL* and change to a clean version, e.g. `linkedin.com/in/maryna-bodnaryuk` (if available) or `linkedin.com/in/marynabodnaryuk`.
- ☐ **Location.** Set to *Lisbon, Portugal*. Makes her appear in Lisbon-based recruiter searches.
- ☐ **Industry.** Set to *Outsourcing & Offshoring Consulting* OR *Translation & Localization*. Pick whichever matches her next-role target most.
- ☐ **Contact info.** Add both phone numbers, email, and the country code so international recruiters can reach her on WhatsApp.
- ☐ **Public profile visibility.** *Settings* → *Visibility* → make headline, summary, experience, skills, education all public.
- ☐ **Creator mode: OFF.** Creator mode hides connection counts and adds hashtags — better for recruiters to see "Connect" not "Follow".

2 Profile photo & banner

PROFILE PHOTO

- Use a clear head-and-shoulders photo, plain or soft-blurred background.
- Smile, looking at the camera, neutral lighting (window light is best).
- The current CV photo works well — same style for LinkedIn keeps her brand consistent.
- Recommended size: 400×400 px minimum, square crop.

BANNER IMAGE

- LinkedIn defaults to grey — replace it. Free option: open Canva → "LinkedIn Banner" template.
- Suggestion: a soft navy or beige banner with the words "*Workforce Operations · Multilingual · AI Data & Language QA*" in clean type. No stock photos of people in suits — looks generic.
- Or: a high-quality photo of Lisbon skyline at golden hour. Personal, location-anchored, unique.

3 Headline (pick one)

The headline is the single most-searched field on LinkedIn. It must include role keywords *and* language keywords. Three options below — they're ranked by how well they balance both audiences (annotation recruiters AND WFM/CS recruiters).

Option A — Recommended (balanced)

COPY-PASTE THIS INTO THE HEADLINE FIELD

Native PT / UA / RU + C1 English · Workforce Manager (Inditex via Konecta) · Open to AI Data Annotation, Language QA & Multilingual Remote Roles · Lisbon

Why it works: leads with the rarest asset (4-language native), names a recognisable employer (Inditex), signals what she wants next, and includes location. Comes in around 200 characters — well within LinkedIn's 220-char limit.

Option B — Annotation-first

IF SHE WANTS TO LEAN FULLY INTO AI ANNOTATION

AI Data Annotator & Language QA Specialist · Native European Portuguese · Native Ukrainian · Native Russian · 4 yrs Workforce & Customer Operations · Lisbon · Remote

Option C — WFM-first (if pivoting back)

IF WFM/OPERATIONS IS THE PRIMARY TARGET

Quadrilingual Workforce Manager (PT/UA/RU/EN) · Real-Time Operations & Forecasting · ex-Inditex (Konecta) · Lisbon · Open to Remote

Tip. Update the headline first — recruiters who reach the rest of the profile have already been pulled in by these 220 characters.

4 About section

The first 2 lines are visible without "see more". Hook there. Below — the full text to paste into the About field.

COPY-PASTE — ABOUT SECTION (2,260 CHARACTERS)

I'm a quadrilingual operations professional based in Lisbon, native in **European Portuguese, Ukrainian, and Russian**, with advanced English. I've spent the last four years inside fast-paced corporate operations — most recently owning workforce planning for one of the largest e-commerce accounts in Iberia.

At **Konecta**, I worked as a **Workforce Manager for Zara Online (Inditex)**, planning schedules and running real-time operations across **15 international markets**. The job was equal parts data analysis and people coordination: forecasting volumes, monitoring agent adherence shift-by-shift, protecting SLA, partnering with HR on staffing — and doing all of it while juggling four working languages.

Before that I was a Customer Service Representative at **O Boticário**, where I learned how to listen, identify needs in seconds, and turn an ordinary interaction into a loyal customer. Two years of that taught me to read tone and context the way an annotator reads a model output — quickly, accurately, and without losing sight of the whole conversation.

Right now I'm focused on **AI data annotation, language quality assurance, and multilingual content evaluation**. The skills transfer directly: native fluency in three under-represented training-data languages, an instinct for spotting when something is off, comfort with detailed instructions, and four years of being measured against KPIs. I'm also expanding into digital content creation — Canva, CapCut, Meta Suite, YouTube Studio — and recently completed a Social Media Marketing certification through Udemy.

What I'm open to:

- AI data annotation, RLHF, language QA roles for European Portuguese, Ukrainian, or Russian
- Multilingual content moderation or trust & safety review
- Localization & translation QA
- Remote workforce / real-time / capacity-planning roles in BPO or e-commerce
- Multilingual customer experience roles for EU markets

I have **Portuguese permanent residency** (full right to work in the EU) and a Ukrainian passport. I'm available for full-time remote work, can flex into US business hours when the work calls for it, and I'm comfortable with the kind of detailed, structured tasks that AI training pipelines run on.

If you're hiring for any of the above — or you've found me because you're a recruiter for a platform like DataAnnotation, Outlier, Surge AI, TELUS Digital, Welocalize, Centific, Mercor, or similar — please send a message. I read all of them.

5 Experience rewrites

Use the role title, employer, dates, and description below for each entry. *Don't delete existing entries — edit them in place* so the dates and history stay intact.

Workforce Manager — Konecta (Zara Online / Inditex)

Title: Workforce Manager **Company:** Konecta **Dates:** Jan 2023 – Nov 2024 **Location:** Lisbon, Portugal

COPY-PASTE — DESCRIPTION

Workforce Manager for the Zara Online (Inditex) customer-service operation, one of the largest e-commerce accounts in Iberia.

- Owned workforce planning and scheduling across **15 international markets**.
- Ran real-time intraday operations: monitored queues, agent adherence, and call/chat volumes; made staffing adjustments to protect SLA and service continuity.
- Maintained and reported on KPIs including SLA, AHT, occupancy, shrinkage, and productivity.
- Partnered cross-functionally with HR on staffing, training alignment, and headcount planning across multilingual teams.
- Performed forecasting and capacity analysis using advanced Excel and dedicated workforce-management software.

Key strengths: real-time decision-making under pressure · multilingual coordination · KPI ownership · forecasting accuracy.

Customer Service Representative — O Boticário

Title: Customer Service Representative **Company:** O Boticário (Tudo Azul, S.A.) **Dates:** Nov 2020 – Nov 2022 **Location:** Portugal

COPY-PASTE — DESCRIPTION

Frontline customer service for one of the leading cosmetics retail brands in the Portuguese-speaking market.

- Delivered personalised customer service in Portuguese and English across multiple channels.
- Built customer loyalty through active listening, needs identification, and consistent follow-through.
- Drove revenue through cross-sell and up-sell on every interaction; supported merchandising operations.
- Handled complaint resolution and order issues end-to-end while maintaining quality standards.

Hostel Assistant — Volunteer (Lisbon)

Title: Hostel Assistant (Volunteer) **Dates:** Jul 2025 – Aug 2025 **Location:** Lisbon, Portugal

COPY-PASTE — DESCRIPTION

Short-term volunteer role supporting a Lisbon hostel during peak summer season.

- Reception and check-in for international guests in four languages.
- Reservation management on Booking.com, Airbnb, and Hostelworld.
- Coordinated daily schedules for cleaning and maintenance staff.
- Promoted and sold cultural and social activities, contributing to ancillary revenue.

Career Transition — Digital Marketing & AI Data Annotation

Title: Career Transition — Digital Marketing & AI Data Annotation **Dates:** Nov 2024 – Present **Location:** Lisbon, Portugal

COPY-PASTE — DESCRIPTION

Self-directed transition period combining structured upskilling with active job search in AI & multilingual remote work.

- Completed Social Media Marketing (SMM) certification — Udemy, 2025.
- Building a content portfolio with Canva, CapCut, YouTube Studio, and Meta Suite.
- Pursuing AI data annotation, RLHF, and language QA roles aligned to native European Portuguese, Ukrainian, and Russian.

Why include the transition period as a role. An empty 18-month gap on LinkedIn raises questions. Framing it as "Career Transition" with concrete activities (Udemy cert, content portfolio, active search) shows intent and momentum.

6 Skills (50 keywords — ordered)

LinkedIn lets her add up to 50 skills. The first 5 are pinned and visible without scrolling — those are the ones recruiters see first. Add them in this exact order so the priority shows correctly.

TOP 5 — PIN THESE FIRST (MOST-SEARCHED TERMS)

European Portuguese Ukrainian Language Russian Language Workforce Management Data Annotation

LANGUAGES & LINGUISTIC SKILLS (POSITIONS 6–15)

Multilingual Communication Translation Localization Language Quality Assurance Linguistic Review
Native Speaker Evaluation Transcreation Content Moderation Cross-Cultural Communication Proofreading

AI / ANNOTATION / DATA (POSITIONS 16–25)

AI Training Data RLHF (Reinforcement Learning from Human Feedback) Large Language Models (LLM)
Prompt Evaluation Search Relevance Evaluation Ad Quality Evaluation Data Labeling Quality Assurance
Attention to Detail Instruction Following

WFM & OPERATIONS (POSITIONS 26–35)

Real-Time Management Capacity Planning Forecasting Scheduling SLA Management KPI Tracking
Productivity Analysis Operational Excellence Cross-Functional Collaboration Performance Reporting

CUSTOMER OPS & TOOLS (POSITIONS 36–50)

Customer Service Customer Experience Customer Loyalty Complaint Resolution Cross-Selling Up-Selling
Microsoft Excel Pivot Tables Booking.com Hostelworld Canva CapCut Meta Business Suite
YouTube Studio Social Media Marketing

Endorsements. Once skills are added, ask 5–10 ex-colleagues from Konecta and O Boticário to endorse the top 5 skills. Each endorsement strengthens recruiter-search ranking. A short "Hi X, I'm refreshing my profile — would you mind endorsing me for [skill]? Happy to return the favour." works.

7 Languages, education & certifications

LANGUAGES SECTION

LANGUAGE	PROFICIENCY
Portuguese	Native or bilingual proficiency
Ukrainian	Native or bilingual proficiency
Russian	Native or bilingual proficiency
English	Professional working proficiency (C1)

EDUCATION SECTION

Bukovina State Financial & Economic College — Law Studies — 2017–2018 (1 year completed).

Activities note (optional): "Completed first year of program before relocating to Portugal."

LICENSES & CERTIFICATIONS

- **Social Media Marketing (SMM)** — Udemy — Issued 2025. Add the certificate URL/PDF if available.

8 Featured & "Open to Work"

FEATURED SECTION (PIN 3 ITEMS AT TOP OF PROFILE)

- The modern CV PDF (so any recruiter can download it instantly).
- The Udemy SMM certificate — proof of recent learning.
- One sample of her content-creation work (a short video, a Canva post) — shows initiative.

OPEN TO WORK — SETTINGS

- ☐ Toggle "Open to Work" ON. Choose **"Recruiters only"** visibility (avoids the green banner; current employer would be irrelevant since she's between roles, but keeps the profile cleaner).
- ☐ **Job titles to add** (LinkedIn allows up to 5):
 1. Data Annotator
 2. AI Trainer
 3. Language Quality Specialist
 4. Workforce Manager
 5. Customer Service Specialist
- ☐ **Locations:** Lisbon, Portugal · Remote · United Kingdom (remote often hires from PT) · United States (for AI annotation platforms paying USD).
- ☐ **Job types:** Full-time · Contract · Part-time.
- ☐ **Start date:** Immediately.

9 Job alerts & saved searches

Set these saved searches so new postings come into her inbox daily. Use LinkedIn Jobs → search → save search.

SEARCH QUERY	FILTERS
"Data Annotator" OR "AI Trainer"	Remote · Worldwide · Posted past week
"Language Quality" OR "Linguistic Review"	Remote · Europe · Past week
"Portuguese" Annotator	Remote · Past week
"Ukrainian" OR "Russian" Annotator	Remote · Past week
"Workforce Manager" OR "WFM Analyst"	Remote · Europe · Past week
"Customer Service" Portuguese	Lisbon · Remote · Past week
"Content Moderator" Russian OR Ukrainian	Remote · Past week

10 Connection & engagement strategy

WHO TO CONNECT WITH (TARGET 50–80 NEW CONNECTIONS IN WEEK 1)

1. **Konecta and Inditex alumni** — search "Konecta Lisbon" and "Zara Online" — connect with anyone she actually worked with.
2. **Recruiters at target platforms** — search "recruiter" + "DataAnnotation" / "Outlier" / "Scale AI" / "Surge AI" / "Welocalize" / "TELUS Digital" / "Centific" / "Mercor".
3. **Workforce-management peers in Lisbon BPOs** — Concentrix, Foundever, Teleperformance, TaskUs, Webhelp.
4. **Localization and language-services people** — search "European Portuguese" or "Ukrainian linguist" with location Portugal.

CONNECTION-REQUEST NOTE TEMPLATE

USE THIS SHORT NOTE (300-CHAR LIMIT)

Hi [Name] — I came across your profile while looking at [Konecta / Outlier / etc.] and wanted to connect. I'm a multilingual workforce specialist (PT/UA/RU/EN) currently exploring AI data annotation and language QA roles. Would love to be in your network. — Maryna

ENGAGEMENT (LIGHT, SUSTAINABLE)

- Once a week, comment something substantive on a post by a target recruiter or platform.
- Once every 2 weeks, post something herself — a short reflection on her career transition, a tool she's testing, a multilingual observation. Use 3–5 hashtags including #dataannotation, #aitrainer, #languageQA, #workforcemanagement, #multilingual.
- Don't over-post. Two well-thought posts a month beats daily fluff.

11 Final checklist

Print this page and tick as she goes. Total time: 2–3 hours for a thorough refresh, doable in one afternoon.

- ☐ Custom URL set (no random suffix)
- ☐ Location, industry, contact info filled in
- ☐ Profile photo replaced with clean head-shot
- ☐ Banner image replaced (Canva or Lisbon photo)
- ☐ New headline pasted (Option A, B, or C)
- ☐ About section pasted
- ☐ Konecta experience description updated
- ☐ O Boticário experience description updated
- ☐ Hostel volunteer experience added
- ☐ Career Transition entry added
- ☐ Top 5 skills pinned in correct order
- ☐ Remaining ~45 skills added
- ☐ Languages section: 4 entries with correct proficiency
- ☐ Education + Udemy certification added
- ☐ Featured section: CV + cert pinned
- ☐ Open to Work configured (5 job titles, locations, types)
- ☐ 7 saved searches set up with email alerts
- ☐ Sent 50+ connection requests with the template note
- ☐ Asked 5–10 ex-colleagues for skill endorsements
- ☐ Posted first transition post (optional but useful)

Last thing. The biggest single ROI step is the headline. If she only has 30 minutes today, do that, the About section, and turn on Open to Work — those three changes alone will generate inbound recruiter messages within a week.
